Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

This house faces north at the southwest intersection of Armory Road and Dares Beach Road. It is a one-and-a-half-story framed and weatherboarded H-plan dwelling, built around the turn of the century. The cross-bar of the H form has been brought forward, flush with the ends of the two "uprights" of the letter H, by an enclosed, shed-roofed porch. The facade of the house is six bays long, with a pair of doorways situated in asymmetrical positions. There are brick stove flues at the ridgeline. The dominate sash design is six-over-one, although many of the windows have been altered and moved. New siding makes the original and added sections of this house difficult to distinguish.
